

Test Summary - Issue #163

Rosa eye calibration for Mary and Yumi

- Scope update: Mary (stable id sol) and Yumi now use Rosa eye pixels while keeping their issue #163 hair colors.
- Rig contract preserved: both edited bases remain 512 x 768 transparent WebP assets with unchanged alpha bboxes.
- Cache busting updated to ?v=20260619-issue163-character-theme-r2.
- No SVG, CSS filter, or renderer special-case was introduced; this remains a raster asset update.

Validation

PASS	In-app Browser data-audit: sol/yumi load r2 asset paths
PASS	In-app Browser mobile visual QA 390 x 740: no horizontal overflow
PASS	Character cards render Princess Yumi and Princess Mary
PASS	Alpha check: 512 x 768, alpha extrema (0, 255), bbox unchanged

Visual Evidence

Rosa source

Mary final

Yumi final

Mobile selected character screen
