

solKidGalGame Test Summary - Issue #168

Wardrobe per-category full-body visual QA

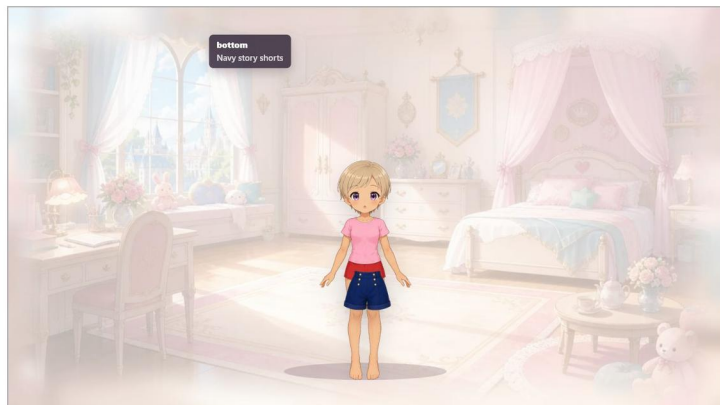

- Purpose: verify every wardrobe item type has at least one actual wear-on screenshot.
- Coverage: 13 item types total; 12 wearable layer types plus outfitSet.
- Capture surface: ?selftest=visual-qa&surface=paper-doll-outfit.
- Each screenshot is a real paper-doll render with the representative item equipped in a full-body room view.
- DOM checks confirmed target layer presence; Browser console had no warnings/errors.
